

**Sustainable
World
of Colors**

Powered by
Italian technology

Grinding
since

1964

Since its inception in 1964, **Italian Printing Inks** has been a pioneer in the printing industry. Founded by Chemist Mr. De Luca in Napoli, Italy, the company strived to build a legacy of innovation and quality that has driven us to the forefront of the Printing Inks and Chemicals Market.

2017

Expanding horizons

In 2017, **Egital Inks** was established with a full manufacturing facility in Cairo, Egypt. This strategic move allowed us to serve the Middle East & Africa, marking a new chapter in our journey towards excellence.

2025

Serving above and beyond **25 Countries**

Manufacturing Capabilities

**Large
Manufacturing
Capacity**

**Wide range of
Pantone + 10,000
shades**

**Sustainable Plant,
"Green" Production**

Key Differentiators

Competitive Advantage:

- Lower Shipping Time & Reduced Shipping Rates
- Lowest Minimum Order Quantity Worldwide

Customization

- Inks specifications:
- Light Fastness
- Alkali, Rub & UV Resistance
- Drying Optimization

Versatile Packaging

- 1 Kg Can
- 2.5 Kg Can
- 200 Kg Barrel
- 1,000 Kg IBCa

Strategic Location

Situated at the crossroads of the Middle East and Africa, benefiting from preferential agreements and proximity to markets in the Levant, Middle East, and Africa, we offer cost-effective manufacturing and streamlined operations.

Range of Products

Trusted by clients worldwide, our portfolio includes renowned products. We use formulations based on vegetable oil esters for a V.O.C free and "Green" offset printing experience ensuring 100% ECO friendly products.

Sheetfed Offset Inks:

Ultra 300® CMYK Series High Concentration
Rapid 1040® CMYK Standard Concentration

UV Inks & Varnishes:

Offering CMYK & basic pantone colors with high or medium viscosity

Water-based Overprint:

High Gloss, Gloss, and Matt finishes to enhance print quality

Metal Decorating inks:

Offering CMYK, Transparent & Opaque Whites Custom colors to meet a variety of tin printing needs

Pantone Colors:

+ 10,000 Pantone & custom shades to cater to specific color requirements

Low Migration Inks:

Featuring CMYK Low migration inks (in compliance with Swiss Ordinance)

Special Grades:

Enhanced properties such as light fastness, alkali resistance, UV resistance, and rub resistance ensure durability and longevity in diverse printing applications.

Printing Chemicals:

A variety of press room chemicals suitable for your everyday printing needs.
